NO.

FDTL-9

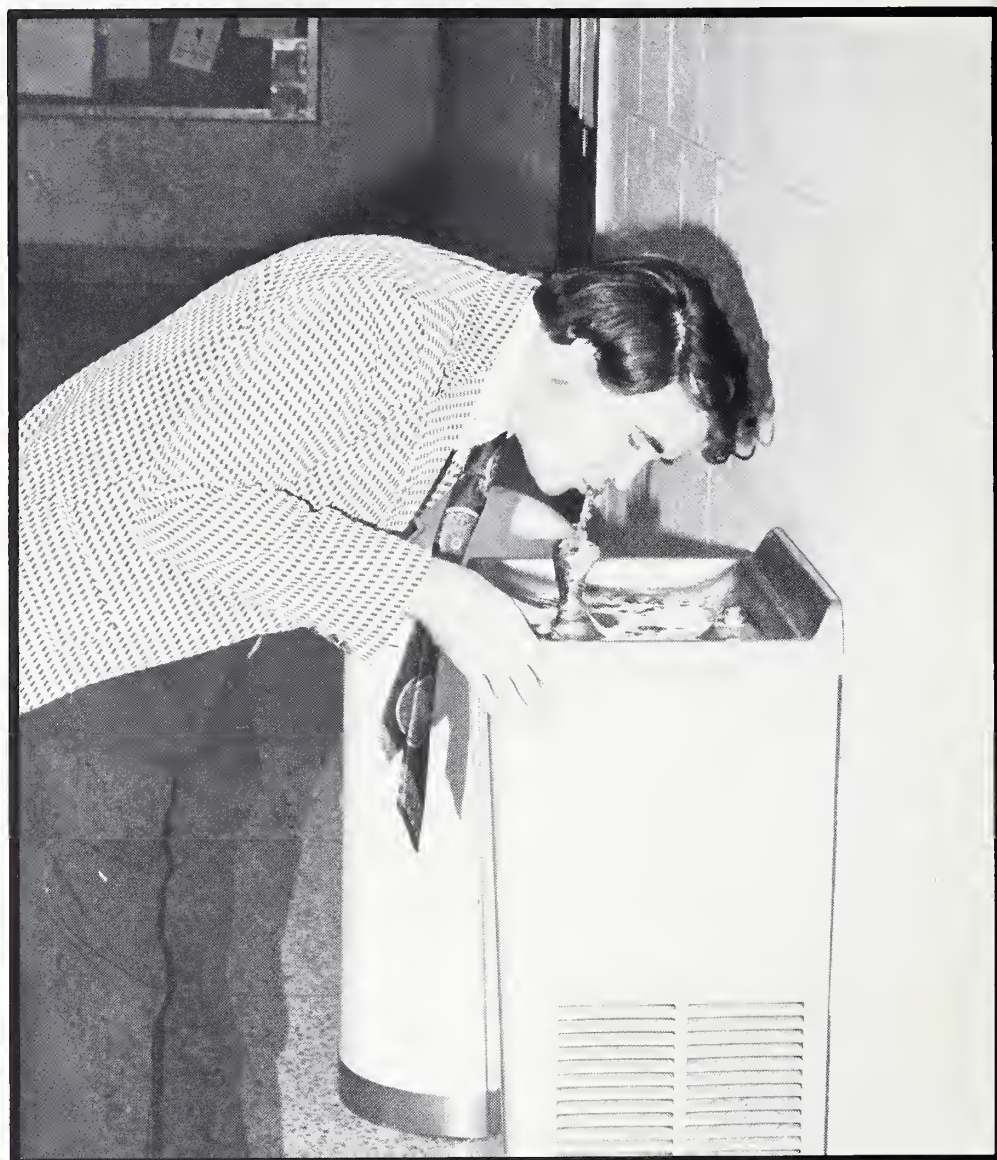

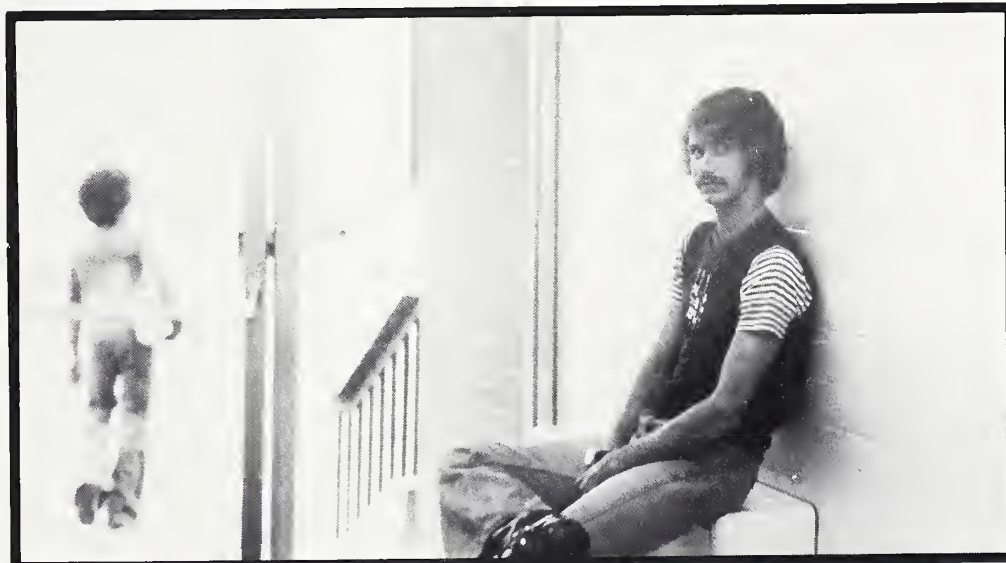

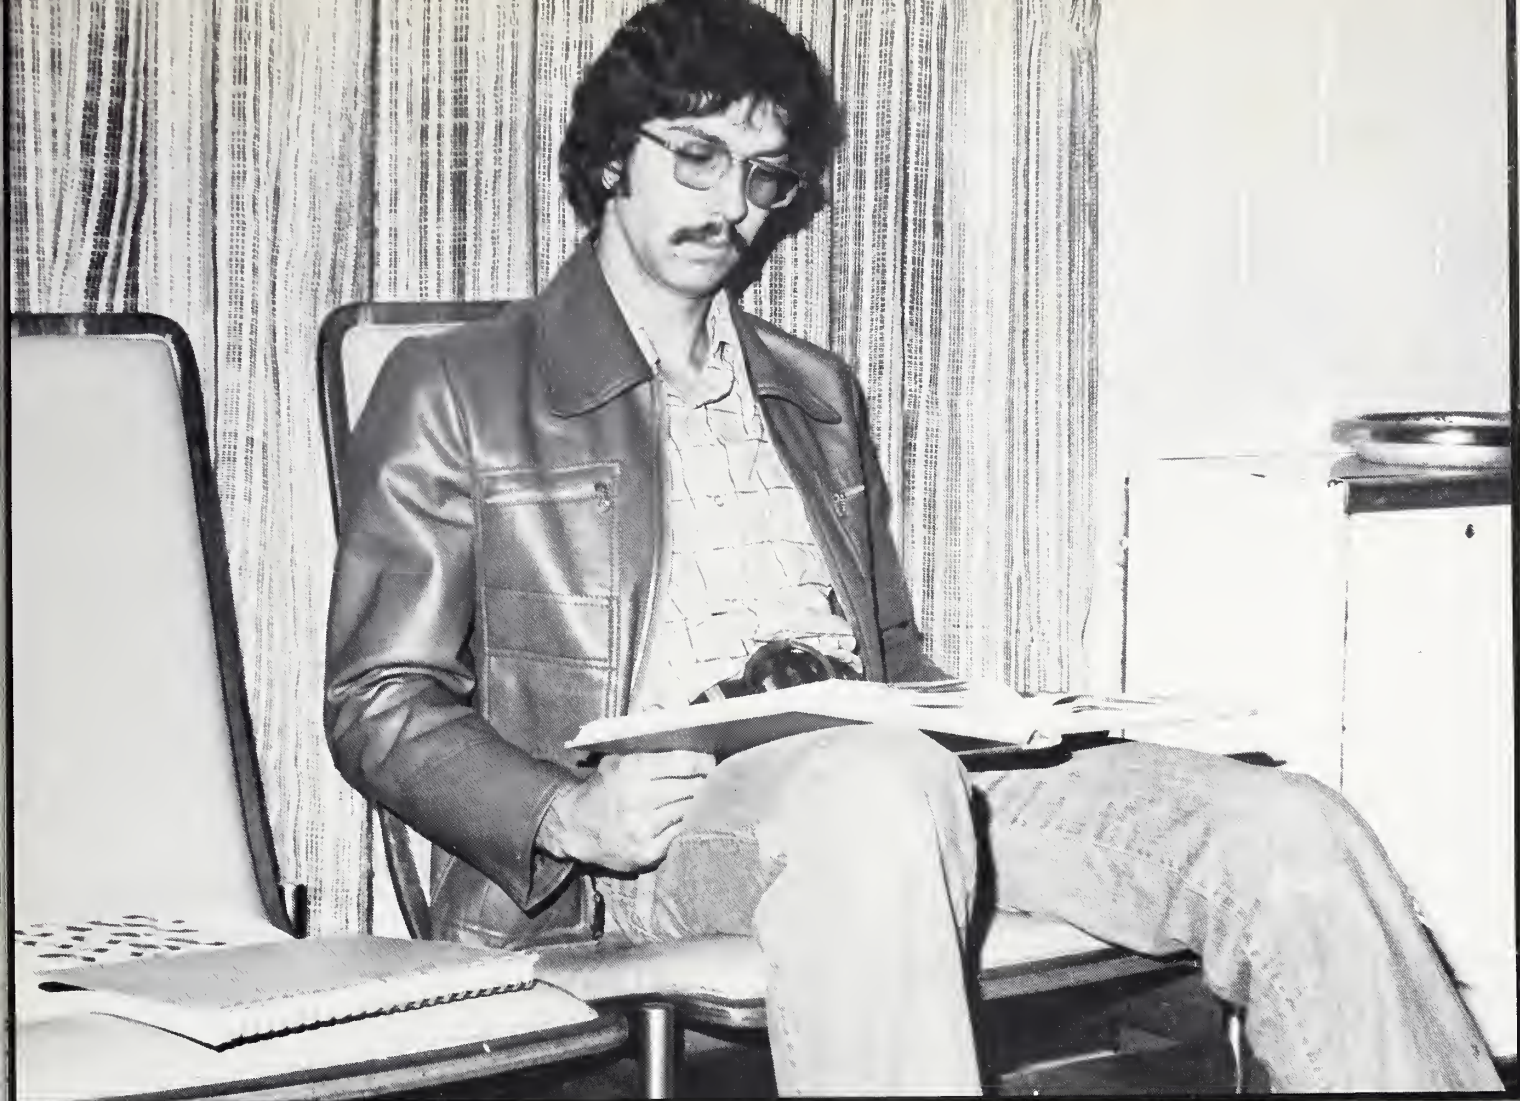

It's
an
everlasting
rainbow . . .

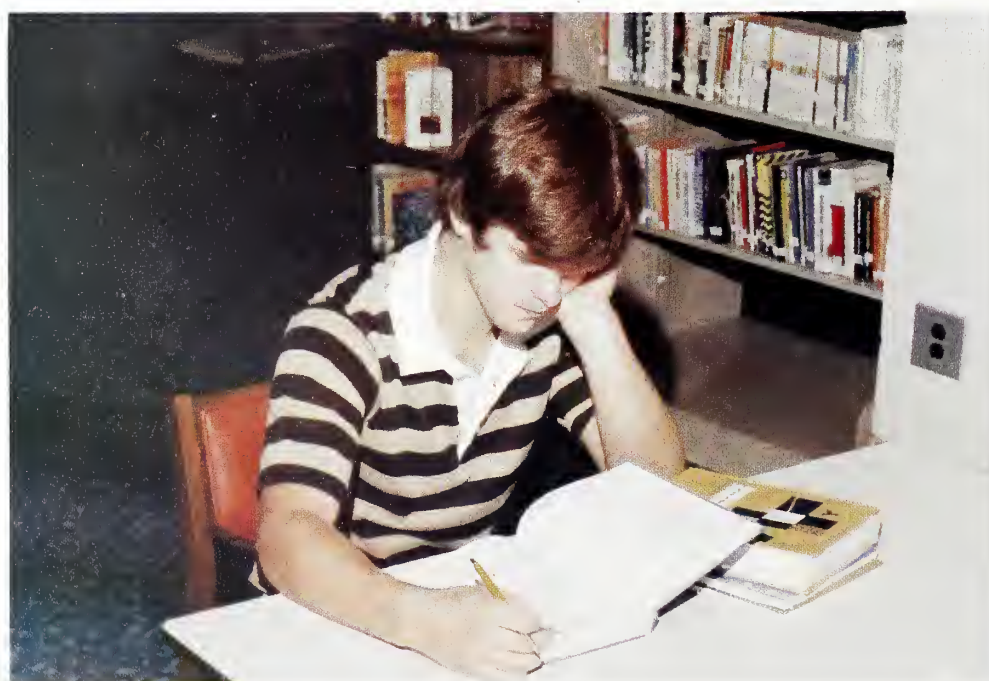

With no
beginning,
no end . . .

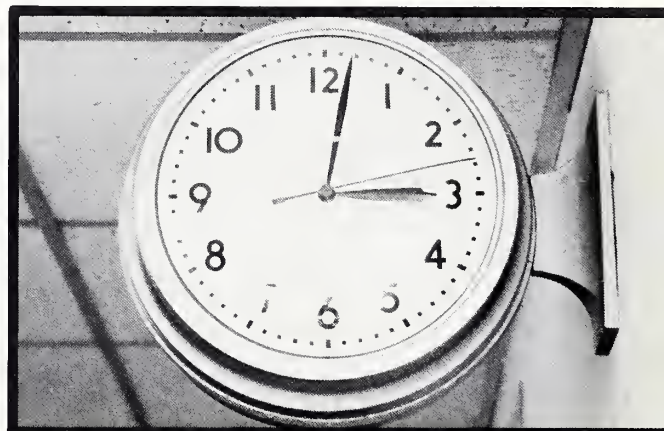

For
which
we're
always
searching . . .

Searching
for our
place in
tomorrow's
future . . .

Gradually
we see
the glow . . .

Our
own
pot
of
gold.

The aims of the Florence-Darlington Technical College Amateur Radio Society are to prepare individuals for various classes of amateur radio licenses, to provide facilities for activities, and to advance the members' understanding of the many electronic and operational facets of radio communications.

The club's interests include Morse code, slow scan television, radio-teletype, satellite communication and signals bounced off the moon or off meteor trails.

Any interested parties are welcome to join the society and should contact Mr. George O'Brien.

As the school year ends, it is only a beginning for us all. There are so many people who have become my friends that I will miss but never forget.

During my year as editor, I have learned that there is more to a yearbook than sticking pictures on a page. I want to thank everyone who put forth an effort towards my deadlines and all along the way. I give special thanks to Mr. Joel Andrews, who headed the artwork and helped in many ways; Mr. Norman McKee, for his wonderful photography and time he spent with us; Mr. Mike Smith, our Taylor Representative, for his great ideas and ability to brighten up the day; and last but not least, Mrs. Susan Meyers, for everything, whom without, this book would have been impossible for me to complete.

I also want to give great recognition to my parents, Mr. and Mrs. R. W. Rhodes, for their thorough support and trust, not only during my two years at ~~the~~ but for all of the years they have given me.
